Pad 18 - Stand D 14

A matter of....LEATHER

A matter of leather—this is what OSCARMASCHERA has always been about since its founding in 2005. Leather in the sense of natural hide: "robust and soft,matures with time like wood and wine, like brandy and cheese. It protects, gathers and changes shape, as it retains something of the life it once had."
What OSCARMASCHERA presents as a novelty at Salone 2026 is a hybridized leather, combined with other materials, adding complexity and meaning to the final product.
We are talking about new coffee tables, high bar stools, and pet beds that expand the CABALLITO BLANCO collection designed by Nestor Perkal.
Also new are the TRESOR trunks, designed by Tonuccidesign, covered in natural leather and revealing an interior with drawers in solid birch wood.
Of course, the company's best sellers are also featured: REGULAR, designed by Oscarmaschera, and ORGANIZE, designed by Claude Bouchard, now reinterpreted with new colors and contemporary options thanks to interiors in laminated vegetable-tanned leather.
A further brand-new proposal aimed at architects is the OMHO – OscarMascheraHospitality collection, made of eco-sustainable bonded leather, water-resistant and composed of: screen/mirror, coat stand, luggage rack, laundry baskets, bathroom containers, and towel holders.

TRESOR

designed by Enrico Tonucci e Viola Tonucci

Tresor is a precious chest with a pure and essential design, crafted from birch wood and upholstered in full-grain leather.
Originally conceived as a display piece for shop windows and exhibitions, it proves to be highly versatile in domestic settings as well: it fits naturally into living areas, entryways, or bedrooms, where it can be used as a seat or a low table.
Tresor is, in fact, a true multifunctional storage piece, ideal for holding linens, blankets, spirits, and valuable objects.

REGULAR

designed by Oscar Maschera

Made from a single sheet of two-ply leather, a few precise cuts and folds held together with hand stitching. Thickness, raw cutting, dyed edges, contrasting colour stitching are the details of the workmanship. The two-ply leather allows the choice of different colours for the inside and the outside, with single or two-colour solutions.

ORGANIZE

designed by Claude Bouchard

Containers for wood-storage, magazines, documents, objects to keep close at hand, in the cupboard or on the bookcase. Organize Collection. Choice of colour combinations from the available range.

CABALLITO BLANCO

designed by Nestor Perkal

New high stools expand the Caballito Blanco collection.
Nestor Perkal's inspiration rides in the saddle of a white horse: a toy seen as a child in a neighbourhood shop window is also the symbol of the story of its people. The Argentines who crossed their country in search of a homeland, food and family, travelled on horseback.
And the saddle of the Caballito blanco is a place, care, support, friendship and rest, all at the same time.
Steel mesh seats with leather, leather and fabric, leather and suede.
